

Downtown Revitalization Grant

The City of Sedgwick established the Downtown Revitalization and Incentive Grant in 2022 to support business development located within the downtown district of Sedgwick Kansas. Funds for the program will be provided by the City for a period of five (5) years, as determined by the council and budgetary constraints.

The purpose of the program is to provide assistance to businesses through grants that will support improvements that result in stability or growth for existing businesses, help with the launch of new businesses downtown, or help combat blight or code issues in the downtown business district. Grants under the program will be provided to those projects that have the greatest value.

Grantees are awarded up to \$5,000 to go towards eligible expenses incurred for façade improvements.
